How To: Log in to Digital Beef

The American Wagyu Association registry service has a member login tool allowing members to manage their herds, input registrations, transfers and performance data, order and track DNA testing, and so much more.

Accessing the member login

The member login can be accessed from the Wagyu home page by clicking on the banner that says Herd Management.

- Go to www.wagyu.org using any Internet browser (i.e. Internet Explorer, Firefox, Safari, Chrome, etc.,)
- Click on Herd Management in the upper middle of the Wagyu home page or go to wagyu.digitalbeef.com.

Quick tip: Your User Name is your AWA member number. Your initial password is the password supplied in the rollout letter or new member packet.

Quick tip: Do not use the AWA Login on the Wagyu home page. This login is for AWA’s member access to Board Meeting Minutes. To access the AWA Registry Service member login, you must click on the Herd Management banner.

- The member login is located in the upper left hand side of the Registry Service screen.
- Enter your User name and Password. Your User Name is your AWA member number. Your initial password is the password supplied in the rollout letter or new member packet.

This is the AWA Registry Service home page. Use this page to login to the member portion of the registry service. Do not use the AWA Login on the Wagyu home page.
Password Information

- **Forgot your password?** Call the AWA office at 208-262-8100 or email office@wagyu.org, to have your password sent to you or to have it reset.

After logging in, a window may pop up asking to remember the password on this computer. This is a function of the Internet browser not the AWA.

Clicking Remember Password means you will not have to re-enter your password every time you log in to the Registry Service on that particular computer. If you are accessing the Registry Service from a public computer, it is not recommended that you enable this option as others using the computer could gain entry into your account.

Quick tip: To make the screen bigger or smaller, use keyboard shortcuts. If you are using a PC, Control + makes it bigger, Control – makes it smaller. If you are using a Mac, use Command + or Command -.

The initial screen after logging in is the General Profile Information. If this is the first time logging into the Registry Service it is important to review and update your account information, especially addresses, phones, contacts and preferences.

The initial screen of the member login of the AWA Registry Service is the General Profile Information. From here, members can update contact information, and access all the other member input screens and tools.
